

# GENERAL MANUFACTURING CREDIT (GMC)

Provides credits on monthly demand and energy charges to qualifying manufacturers, making rates more competitive and helping retain manufacturing load in the Tennessee Valley.

## WHY YOU SHOULD PARTICIPATE:

The General Manufacturing Credit offers significant power cost savings to qualifying manufacturers, which in turn helps retain manufacturing load in the Tennessee Valley. A strong manufacturing base helps TVA keep rates low for all consumers.

## ELIGIBILITY REQUIREMENTS:

- Delivery points served under Part 3 of either Schedule GSA or TGSA, or Schedule MSA
- Major use of electricity for activities are classified with SIC codes 20 through 39, or 2002 NAICS code 5181, or 2007 NAICS codes 5182, 522320, and 541214

## HOW IT WORKS:

For each month<sup>\*</sup> in which an eligible customer has a metered demand that exceeds 1,000 kW<sup>\*\*</sup>, the General Manufacturing Credit is calculated as:

*General Manufacturing Credit =*

$$(\$1.38 \times 1,000 \text{ kW}) + (\$1.63 \times (\text{firm billing kW} - 1,000 \text{ kW})) + (1.076\text{¢} \times \text{firm billing kWh})$$

## HOW TO SUBSCRIBE:

Contact your local power company for more information on program details and the subscription process.

<sup>\*</sup> General Manufacturing credits will be issued once per billing month for each eligible customer account.

<sup>\*\*</sup> Metered demand for the billing month must exceed 1,000 kW.
